1 Define the Scenario

Choose a specific future scenario and a clear, relatable human context within it.

Deploy Scenario Personas

Assign character parameters: How do community stewards, fringe actors, technical models, or institutional players react?

2

Inject System Shock Dilemmas

Introduce an abrupt operational barrier or ethical complication: How does each character handle the disruption?

3

Capture Frictions & Adapative Moves

Document core points of friction: What structural blocks or practical user workarounds surfaced during live tracking?
